(c) For individuals otherwise exempt from cost sharing under §447.56(a), the agency may impose cost sharing for non-emergency use of the emergency department, not to exceed the maximum amount established in paragraph (b) of this section for individuals with income at or below 150 percent of the FPL.

(d) For the agency to impose cost sharing under paragraph (a) or (c) of this section for non-emergency use of the emergency department, the hospital providing the care must—

(b) This standard copayment amount for any service may be determined by applying the maximum copayment amounts specified in §447.54(a) and (c) to the agency's average or typical payment for that service. For example, if

the agency's typical payment for prescribed drugs is \$4 to \$5 per prescription, the agency might set a standard copayment of \$.60 per prescription. This standard copayment may be adjusted based on updated copayments as permitted under §447.54(a)(3).
